Bullseye December 2015

🔍 Product In Focus - Wheel Seal & Bearing Kits

Advantages

- A convenient and easy way to order wheel end bearings and seals for heavy truck and trailer applications.
- Reductions in cost and time by simplifying the stock range, cross referencing and product handling.
- Hydrogenated Nitrile (HNBR) rubber seals to withstand higher temperatures and synthetic lubricants (MERO2XX series).
- Meritor branded bearings offering outstanding performance and quality.
- 1 year unlimited km warranty.

REMINDER!

VOR cut off is 10:00am 24th December

Pick up cut off is 11:00am 24th December

Getting Technical - AllFit Wheel Seals

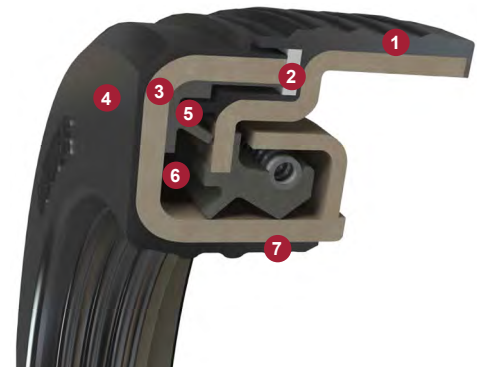

Features and Benefits

- Standard wheel seals feature a nitrile compound rubber (NBR) for the sealing lip
- Premium wheel seals feature a hydrogenated nitrile butadiene rubber (HNBR), offering additional advantages of higher temperature capability, greater wear resistance and compatibility with all known synthetic lubricants
- The multi-zone labyrinth design and low-friction barrier deliver unmatched durability and protection against dirt, grime, water and other contaminants
- The bumper transmits the fitting force from the front of the seal to the outer diameter, and acts as the first defence against contaminants
- The seal provides outstanding lubricant retention and protection against contaminants, but they are also easier to install, which significantly decreases the potential for damage during installation

Advantages

- 1 Four outside diameter seal points to ensure secure fit in the hub
- 2 Unique multi-zone labyrinth design provides the best protection and the lowest friction
- 3 Stiffer profile and thicker steel to withstand fitting forces
- 4 Rubber front face protects from brake heat
- 5 Unique low friction bumper significantly reduces run-in period, reduces required torque and keeps the seal cool from the outset
- 6 Large crumple zone/safety gap prevents internal damage
- 7 Wide inside diameter with three rubber-ribbed points to ensure proper sealing capability

Employee Profile - Diane Taylor

Role at Meritor: Customer Service Administration
Year Joined: 2012

What is your background in Customer Service?

Customer service has always played a big part in my working life. I worked for many years as a receptionist then many years in accounts payable. A change in direction brought me to Meritor.

What are your main responsibilities?

I talk to customers on a daily basis, provide information and feedback on their orders and work towards meeting all delivery requirements.

How do you maintain excellence in customer service?

I strive to exceed customer expectations and provide them with the information and assistance they require at all times.

Why do you like working in customer service?

I really enjoy my job. I enjoy talking with customers and I am lucky to work with a fantastic team.

How does your work impact on the relationship between the customer and sales?

I am there to provide the information to our customer, if the information is correct and delivered in a friendly manner our customer will purchase our parts. A friendly informative response gives our customers confidence and trust in Meritor.

What are your interests and hobbies outside work?

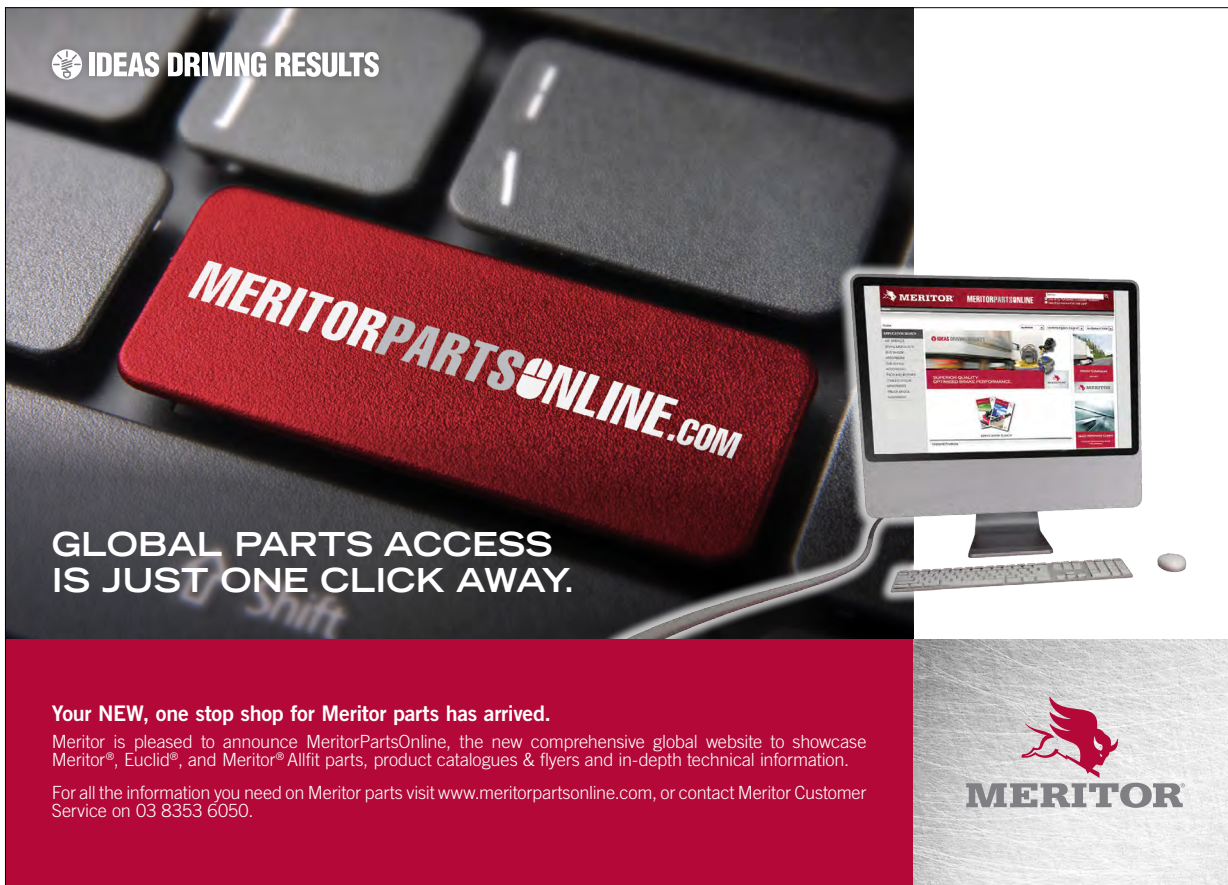

I love reading, especially autobiographies. I also enjoy going to the movies and eating out.
