## **PRODUCT IN FOCUS - Meritor and Euclid Caliper Repair Kits**

**Do you feel like your vehicle's brakes are failing?  
Have you checked on the major components but everything seems normal?**

You might actually need to get a Brake Caliper Repair Kit for your vehicle. Over time, the seals and components of the brake calipers get worn out and might eventually fail. This can cause worn components which can impair your brake system altogether. A new brake caliper repair kit is what you may need to maintain the safe operation of your brake system.

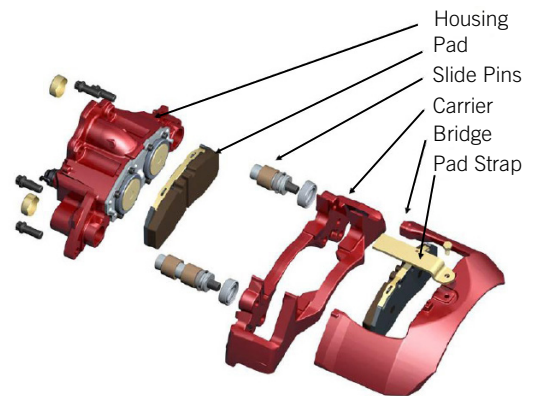

### **OE PERFORMANCE**

Genuine Caliper Repair Kits have the same dimensions and tolerances as the Original as they are the same parts. Our repair kits guarantee the same level of original equipment performance and durability.

### **QUALITY MATTERS**

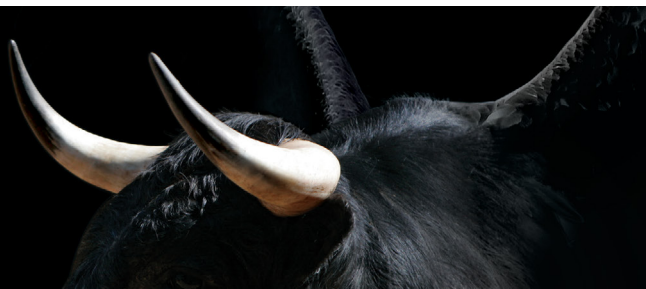

All elements of Meritor and Euclid Caliper Repair Kits are designed, specified and tested to ensure maximum safety and durability for each application. Our range of Caliper Repair Kits contains a comprehensive selection of products including handed caliper repair kits and adjusting mechanisms for different specification calipers. Click and explore our Disc Brake Caliper Repair Kit catalogue here:

## **EMPLOYEE PROFILE - RAM ARUNACHALAM**

**Role at Meritor: Purchasing Manager**  
**Year Joined: 2010**

### What is your background in Purchasing?

I have been employed as a Purchasing Manager with Meritor for over 7 years – most of that time with Meritor India and more recently with Meritor Australia. Prior to joining Purchasing, I worked in Marketing and that experience has been invaluable in developing my understanding of the trucking industry.

I have a particular interest in numbers and formulating strategy, which naturally assists the role I am in. It is true that when you enjoy doing something and if it happens to be your job, you really don't have to work at it!

### What is your biggest challenge within this role?

It's the economic factors and demand/supply situations that create the biggest challenge for Purchasing.

### What are your interests outside work?

I am a keen amateur photographer. My family and I recently made the move to Australia and this is a dream destination for nature photographers.
