BULLS EYE NOVEMBER 2017

PRODUCT IN FOCUS - Euclid Air Hoses

Features and Benefits

- Meets the design requirements of: United States Department of Transportation (DOT), Society of Automotive Engineers and the National Highway Traffic Safety Administration.
- Extremely flexible and kink resistant
- Complies with DOT FMVSS 106 requirements
- Two spiral construction meets SAE J1402 specifications
- Coupling meets SAE and DOT minimum pull-off requirements
- High quality brass male pipe fitting on one end, female air brake swivel with male pipe adapter on other end
- Temperature rating: -40°C to +100°C

Air Hose Assembly Wall Display Racks — E-8703

- Holds up to 48 Air Hose assemblies – easy to store and re-order
- Good for showroom display or workshop
- 12 hooks each hold 4 Air Hose assemblies
- 48 pre-printed Euclid part number labels and 20 blank labels included with each rack

NEW!

UPDATED! WHEEL SEAL CROSS REFERENCES

Features and Benefits

- Standard wheel seals feature a nitrile compound rubber (NBR) for the sealing lip
- Premium wheel seals feature a hydrogenated nitrile butadiene rubber (HNBR), offering additional advantages of higher temperature capability, greater wear resistance and compatibility with all known synthetic lubricants
- The multi-zone labyrinth design and low-friction barrier deliver unmatched durability and protection against dirt, grime, water and other contaminants
- The bumper transmits the fitting force from the front of the seal to the outer diameter, and acts as the first defence against contaminants
- The seal provides outstanding lubricant retention and protection against contaminants, but they are also easier to install, which significantly decreases the potential for damage during installation

EMPLOYEE PROFILE - **PATRICK JOSE**

Role at Meritor: Product Manager
Year Joined: 2017

What is your background in product management?

I completed Product Design Engineering at Swinburne University which combines Mechanical Engineering with Industrial Design that develop Engineers to use both sides of their brain, the analytical and creative side. I have worked in numerous diverse industries; Construction, Biomedical, Automotive and Hydraulics. I was involved in Field Technical, Sales & Marketing and Product Management before joining Meritor.

What is your biggest challenge within this role?

As the heavy vehicle industry is all new to me, it has been a steep learning curve to be familiar with the product range and the industry. However because of my hands-on approach it won't be long before I will become an expert in this field.

What are your interests outside work?

Having three kids under five keeps me quite busy, however I do try to cycle, play basketball and golf as much as possible. I recently participated in the 50km ride around the bay this year-next year's target is the 210km!
