## Special Notice - Meritor Australia Brand Update

Dear Meritor Customer,

Meritor Australia would like to inform you of pending brand changes driven by our recently announced global aftermarket brand: MACH. The launch of an exciting new brand presents a unique opportunity to realign our existing portfolio to better leverage the strength of the Meritor brand. Over the coming months you will notice changes to the packaging and branding of Meritor products. The below graphic illustrates the branding changes we will be implementing at Meritor Australia, beginning from March 2018.

MACH is a completely new brand targeted at the value segment of the market. Meritor Australia plan to introduce the Mach brand to customers in mid-2018. At this stage we have not finalised the suite of MACH products available in Australia, but will keep you informed as we near this date. You can find more information on this brand here: <http://www.machtruckparts.com/>

The key points to note are:

- Parts which are currently fitted in production will transition from Meritor to Meritor Genuine branding, signifying the OEM quality of the product. These will continue to be available only to Original Equipment Manufacturer (OEM) customers
- The Meritor AllFit brand will be replaced by the Meritor brand (in either Red or Black)
- The Euclid brand will remain however Euclid Brake Shoe Kits will transition to Meritor (Black) brand.
- New Mach product will be introduced mid-way through calendar year 2018
- Meritor will continue to offer a range of Meritor co-branded private label brake shoe kits

We hope these changes will enable you to better utilise our offering to compete in the commercial vehicle aftermarket and ask for your patience and understanding as we transition parts to the new branding over the coming months.

I would also like to take this opportunity to reassure all customers that the described changes are of a packaging and branding nature only and will have no impact upon the quality and reliability of our existing parts.

If you have any questions or concerns regarding the changes please don't hesitate to contact your local Meritor Driveforce™ Field Representative.

Kind Regards,

Adam Carroll  
Product & Marketing Team Leader  
Meritor Australia

## EMPLOYEE PROFILE - MICHAEL SNELL

*Role at Meritor: Sales Manager / Year Joined: 1999*

### What is your background in Sales Management?

I started with Meritor in 1999 in Operations with roles in Quality and Continuous Improvement. In 2003 I moved into the Field Operations Group as a Field Sales & Service Engineer responsible for WA, SA, NT, TAS and a large part of VIC. I then left Meritor in 2006 and moved to the UK. In 2008 I returned to Meritor as the Sales & Marketing Manager for the Truck business unit. In 2013 my role was expanded to include the sales function of the Aftermarket business unit and in 2016 expanded further to include the Marketing function.

### What challenges are involved in the role?

The main challenge I have is to ensure that the business keeps growing year-on-year whilst ensuring we meet our customers expectations. Meritor is transitioning to a growth oriented company via the company's M2019 strategy that has been rolled out globally. In order to do this, I need to ensure that the Sales & Marketing team have all the business tools they need to help drive growth.

### What interests do you have outside work?

I have a young family so majority of my time outside of work is spent with the family. When I get a chance, I enjoy catching up with my mates for a quiet beer.
