

MERITOR® SHOCK ABSORBERS

 **IDEAS DRIVING RESULTS**
HARDWORKING SHOCK ABSORBERS
FOR CONTROL, COMFORT AND CARGO
PROTECTION.

INTRODUCING MERITOR SHOCK ABSORBERS

Meritor shock absorbers feature class-leading technology along with unsurpassed service and support. They are designed, engineered and manufactured to meet the needs of today's fleet customers.

Our Meritor shock absorbers are an ideal choice for today's vehicles equipped with low-friction suspensions that have a higher amount of vertical travel, or "roll." While low-friction suspensions minimize highway vibration and improve ride, they also require shocks in order to better control roll. Meritor shock absorbers meet this demand, delivering a comfortable ride for the driver and providing maximum protection for the cargo.

Fits Your Need.

Choose from Premium Adjustable shocks, Standard-Duty shocks and Cab shocks. We have a complete range for Class 6-8 vehicles, including:

- Trucks and trailers
- Buses
- Pickup-and-delivery
- Fire and rescue
- RVs
- Municipal
- Utility
- Tow trucks

MERITOR SHOCK ABSORBER FEATURES*

Meritor shock absorbers are built with superior components and materials to deliver reliability, control and comfort.

Most applications include dual-weld end mounts with 360° welding, for structural strength and improved durability

Multi-lip rod seal increases durability

1-5/8" (41mm) bore design for a full range of demanding applications

Hydraulically energized self-compensating piston seal maintains damping performance over time

Premium Adjustable shocks feature a superior hydraulic fluid, for improved wear

Hardened, polished chrome piston rod

Full-bore hydraulic extension stop provides hydraulic cushioning at full extension

Premium Adjustable shocks feature a gas cell, which provides complete separation of gas/air from fluid

Most applications feature a 10-stage full-displacement coil valve system. Premium Adjustable shocks have three-stage adjustable rebound damping, which provides comfort and control at every speed

*Features apply to Standard-Duty shocks and Premium Adjustable shocks where indicated. Not every feature shown is fully applicable to Cab shocks.

Meritor shocks feature components that are made to last, including hardened and polished chrome piston rods and hydraulically energized self-compensating piston seals.

Premium Adjustable Shocks.

The Premium Adjustable shock can be converted to three positions – regular, firm and extra-firm. The regular and extra-firm settings allow operators to adjust the shock to create either a softer or a firmer ride.

Standard-Duty Shocks.

Engineered for optimum day-in and day-out performance, the Standard-Duty shock is manufactured with robust components to help ensure longevity and durability on the road.

Cab Shocks.

Meritor Cab shocks are designed to isolate the cab from the vehicle's frame and maximize ride comfort.
