## EMPLOYEE PROFILE

### ALAN CASTRO

ROLE AT MERITOR: Product Engineer

YEAR OF JOIN: 2019

#### What is your background?

I am a Mechatronics engineer with 3 years experience in the automotive industry. Previously I worked as a product engineer with Cooper Standard for the North American Region.

#### Tell us a little bit about your main job responsibilities.

I am providing engineering support for CVA (Aftermarket), driveline (OEM) and material optimisation projects. I will provide the engineering technical support for changes and/or improvements we make to these products. I will also support any new product introduction.

#### What do you enjoy most about your role?

I enjoy working on different projects and supporting the needs of our customers.

#### What is your biggest challenge in your new role as Product Engineer ?

As a new employee my biggest challenges will be to familiarise myself with the products we have and to interact effectively with different areas within the organisation.

#### What are your interests outside work?

I like to go out for a movie or dinner. When I have the chance I try to play some tennis and also I enjoy reading, whether it be for entertainment or to increase my knowledge.
