TECH TIPS

TIE ROD END: LINKAGE INSPECTION

- Lightly rock steering wheel, no movement to be in tapers.
- Wheel straight ahead, engine off, no force exerted on linkage by steering gear.
- Check joint by HAND in a push – pull motion in the direction of the ball stud axis.
- Must be held without twisting.
- **If motion is over 3 mm (1/8") Vehicle is to be taken out of service.**

Inspect for movement along vertical axis only.

- If movement is less than 3 mm (1/8"), joint must be replaced as soon as possible.
- Do not use any leverage when checking.
- Any movement less than 3 mm (1/8") is a maintenance issue for the vehicle.
- Do not apply steering gear power to the joint when performing a check.

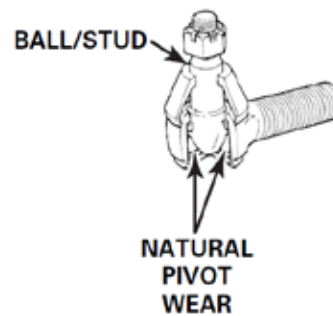

BULLS EYE 2019

TECH TIPS

TIE ROD END: LINKAGE INSPECTION

- Do not grease the tie rod assembly before inspection.
- Regular inspection and maintenance helps to minimise the effects of tie rod end wear.

- Check boot for cracks, tears or other damage.

- Check that tie rod end is threaded correctly into the cross tube and installed deeper than the end of the cross tube slot.

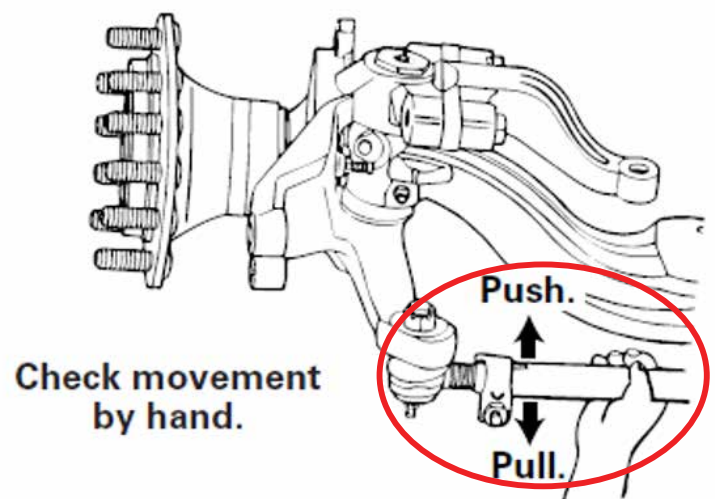

BULLS EYE 2019

TECH TIPS

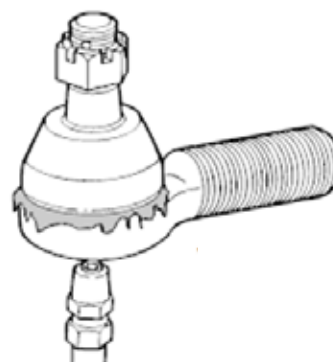

TIE ROD END: LINKAGE INSPECTION

CAUTION!

- Only use hands to check for movement.
- Using both hands, grasp the assembly end as close to the socket as possible, no more than 150 mm (6") from the end.
- Any movement, replace both tie rod ends.
- If movement is 3 mm (1/8") or more, remove vehicle from service and replace both tie rod ends immediately.

- Do not use excessive pressure when applying grease.
- All tie rod ends must purge grease from the boots

EMPLOYEE PROFILE

LORA LU

ROLE AT MERITOR: Assistant Account Manager

YEAR JOINED MERITOR: 2019

1. WHAT IS YOUR BACKGROUND?

I am originally from China working in account management roles for about 6 years in Shanghai. I moved to Melbourne in 2017 to pursue my MBA (Executive) at RMIT. I am fascinated by business and I have a passion to work with people from different backgrounds. Although I have only worked at Meritor for three months, I have learned so much from my colleagues and my work.

2. TELL US A LITTLE BIT ABOUT YOUR MAIN JOB RESPONSIBILITIES.

My responsibilities as an assistant account manager are to support our sales team including the sales manager and regional managers with sales operations and to serve the current customers and potential customers here in Australia. Success to me is when the needs of sales team are satisfied, the customers are happy with our products and service and when the internal teams such as the supply chain and production teams get the support they need.

3. WHAT DO YOU ENJOY MOST ABOUT YOUR ROLE?

At Meritor people are experienced and highly dedicated to their roles. Many people have worked at Meritor for more than 10 years and have accumulated a vast amount of experience and business intuition. I enjoy working with and learning from my team members the most. I learn so much from them and am proud to be on their team.

4. WHAT IS YOUR BIGGEST CHALLENGE IN YOUR NEW ROLE AS ASSISTANT ACCOUNT MANAGER ?

My biggest challenge is that I feel a little intimidated by my highly productive colleagues. I want to ensure that I can contribute at the same level and it can be a bit overwhelming however I'm continuing to learn on a daily basis and it's becoming much easier for me.

5. WHAT ARE YOUR INTERESTS OUTSIDE WORK?

I enjoy gym classes, cooking, gardening, meditation and traveling. I am particularly interested in art exhibitions and attending cultural plays that inspire me to think deeper about the meaning of life.
