## Find the **X**act Brake Shoe Kit You Need With **X**act Search

Earlier this year, Meritor added [Brake Shoe Kit Selector](#) functionality to our **Xact Search** tool on [MeritorPartsXpress.com](http://MeritorPartsXpress.com). The new selector tool allows users to find the exact brake shoe kit they need in just a few clicks. Why is this important? It takes the guesswork out of finding the part that best fits your application. Simply select the brake shoe dimensions and few details about your vehicle type, required lining weight rating and application, then we do the work for you. Based on the criteria you provide, we offer our best recommendation(s) for your replacement brake shoe kit. Below are step-by-step instructions on how to find the correct brake shoe kit using **Xact Search** on [MeritorPartsXpress.com](http://MeritorPartsXpress.com).

### **Step 1: Identify Brake Shoe**

Graphics help identify the required dimensions and manufacturer.

Centerline to Centerline Measurements  
Determine Brake Drum Diameter

## Step 2: Identify Your Application

Users have two options. You can choose your application **OR** provide details of the competitor lining currently being used.

*Option 1: Application Information - select the vehicle type and lining weight rating.*

Select an option  Application Information  Competitor Lining Information

### Application Information

Select a Vehicle Type

Beverage	Car Hauler	Container Chassis	Double Trailer	Dump/Tandem Dump	Fire Truck
Flatbed Trailer	Logging Trailer	Mixer/Tandem Mixer	Moving Van-Low Profile	Refuse	School Bus
Single Axle Truck/Trailer	Tandem Axle Tractor/Trailer	Tri-Axle Dump Trailer			

Select a Lining Weight Rating

Select
20,000
21,000
23,000
23,000-26,000
26,000

*Option 2: Competitor Lining Information - select the manufacturer and lining number.*

Select an option  Application Information  Competitor Lining Information

### Competitor Lining Information

Manufacturer

- Abex
- Armada
- Bendix
- Gorilla
- Haldex
- Marathon
- OTR
- Silverback
- Stemco

Lining Number

### Step 3: Select the Brake Shoe Kit You Need

To take action, select the check box in front of the part number (i.e. Add to Cart, Add to Compare, etc.). If more than one part number is shown, simply filter or sort your options to refine your search. Where offered, users can click the Literature link to view lining specifications.
