New Driveshaft Specification Tool on MeritorPartsXpress.com

We are pleased to announce an online tool to help streamline our **24-hour Driveshaft on Demand (DOD)** program, enabling customers to quickly and efficiently identify and order replacement driveshaft products directly from MeritorPartsXpress.com, which includes a portfolio of approximately 40,000 driveshaft part numbers.

Registered **MeritorPartsXpress** users can access this new tool on any device including smartphones, tablets and laptops. The tool comes with high-quality images, step-by-step instructions, and instructional videos on how to identify and specify a driveshaft, even when a part number is not readily available.

24 HOUR
DRIVESHAFT
ON DEMAND

All replacement driveshafts ordered through **Driveshaft on Demand** are built with high quality components to exacting Meritor specifications, shipped within **24-hours** of the order and come with a 2-year nationwide warranty.

As we continue to support and innovate our DOD program, this new update will reduce the time it takes to report and replace customer driveshaft orders. Enhancing our digital footprint continues to be a priority at Meritor, as we look to improve quality and efficiency in customer relations.

XPRESS TIP!

Partial Part Number Search

Did you know: An asterisk can be used as a wild card within our SEARCH boxes? When you are unsure of a part number, enter partial part number and replace unavailable characters with an asterisk " * "

The asterisk will help find parts based on the first or the last few digits of the part number you provide.
