How to Find Product Resources in Just 2 Clicks.

Wouldn't it be great if you had one source for Meritor aftermarket product information, tools and resources? **Xpress Facts** on [MeritorPartsXpress.com](https://www.meritorpartsxpress.com) offer a wide variety of materials to help support our customers. From spec'ing the right product, to maintaining existing products, sales/technician training and more, our product information and tools are just a couple clicks away. Since the launch of this new feature earlier this year, we have added a landing page that includes images to help direct you to the **Xpress Facts** pages by product line.

Your first click: From the MeritorPartsXpress [homepage](#), click the Xpress Facts icon under the Run With Support section.

Your second click: Select a product category to access the Xpress Facts product page you need.

Why do we call them Xpress Facts? The answer is simple. You have fast access to all of the available Meritor aftermarket product resources you need, such as sales and technical publications, maintenance manuals, catalogs, calculator and search tools, videos, on-demand training courses and more. The **Xpress Facts** product pages are available for both logged-in and non-logged in users, making it easy to share information with colleagues and customers from any device, whether you're on a computer, tablet or mobile phone.
