How to Find the Right Service Parts Using Production BOMs on MeritorPartsXpress

[MeritorPartsXpress](#) offers various ways you can find the replacement parts you need from [Visual Search](#) to [Xact Search](#) to Catalog search, and more. Significant improvements have also been made to production bill of materials (BOM)s information offered on the site. Meritor production BOMs have been modified to be service-oriented to ensure that a saleable replacement part can be found and/or purchased when needed. Anyone looking for service parts can search by the full specification number for a complete breakdown of the components for that assembly to get the aftermarket part they need.
